

TS Jack Petchey

In 2007 the Jack Petchey Foundation gave a **£1 million** grant to the Marine Society and Sea Cadets, to fund the construction of a brand new power-training ship.

The ship, called 'TS Jack Petchey', has 16 berths and was launched in July 2009, with an official commissioning ceremony following sea trials on 13 April 2010

Over its 25 year lifespan TS Jack Petchey will be used to train 16,000 young people from across the UK in sailing skills, as a means of

developing self confidence, team-working, and self discipline.
